Dear Folks -

Well still not a great deal to write about - some old stuff - they got us up this morn to fly more fun - but Wilson - Flew about 5 hours - A Boy was it cold - 40° below but we had electric suits - I really kept warm - went to town yesterday to get some bicycle parts - but the stores all close on Sunday - guess it a holiday, Fed in England - Got a letter from Fred Biers - who is in England - and would like to see Jim - and tryin to arrange it <sup>to get together</sup> so we can see hope so - Linda coed out tonight so we built a roarin fire in our stove - more fun - takes all our time to find wood for it - but it sure really helps - I don't know what we're going to do tomorrow - one more snow around here - also got the Oscar press the other day - really OK - I see Tom M. was gone - and has been gone a long time - Well guess that's all for now - sorry this is so short

Joe Haggard
